Pursuant to Circular No. 96/2020/TT-BTC dated 16 November 2020, of the Ministry of Finance regarding the guidance on disclosing information on the securities market.

Ha Tinh Minerals and Trading Corporation – Joint Stock Company (the Corporation), stock code (MTA), hereby provides the following explanation:

+ The audited business results for the first half of 2025, both in the Separate Financial Statements and the Consolidated Financial Statements, remain unchanged compared to the unaudited figures.

+ The audited business results for the first half of 2025 show a change of over 10% year-over-year due to the following reasons:

- For the Parent Company: Subsidiaries operating in the livestock sector recorded profits, allowing the Parent Company to reverse part of the financial investment provision previously recognized. As a result, the Parent Company's profit increased by more than 10% year-over-year.

- For the Consolidated Financial Statements: In the first half of 2025, the selling price of pork products increased year-over-year. Additionally, disease control measures in Ha Tinh were more effective, leading to reduced epidemic prevention costs. Consequently, companies in the agricultural sector experienced improved business results, while other units showed little fluctuation. This led to an increase of over 10% year-over-year in the audited consolidated financial statements for the first half of 2025.

This is the explanation from the Corporation, respectfully submitted to the State Securities Commission and the Hanoi Stock Exchange for consideration.
